

Wallace® Ring Pessaries

The Wallace® ring pessaries are available in a wide range of sizes to suit all patients. The flexible material provides comfort to the patient during fitting and duration of use.

Designed to Ease Uterine Prolapse and Other Uterine Displacements

Simple to Fit – Ring softens when immersed in warm water to aid in fitting

Easy to Maintain – Remove and replace with a new ring pessary

Key Product Benefits

- Range of sizes to suit all patients
- Flexible PVC with large cross section
- Sixteen sizes from 50mm to 110mm (outside diameter)
