The Infant Heel Warmer with Lift & Stick Tape Directions for Use

DESCRIPTION
The Infant Heel Warmer with Lift & Stick Tape is a disposable heel warmer for use when circulation needs to be stimulated in the newborn or infant heel in order for blood sampling to occur. When the Infant Heel Warmer is activated at 75° F (24° C), the temperature of the Infant Heel Warmer rises from 75° F (24° C) to a maximum of 107° F (42° C), then gradually diminishes over time.

INDICATIONS FOR USE
An instant warm pack intended to be used on an infant’s heel to increase blood circulation to the area to aid in the drawing of blood for analysis. It is a single use, non-toxic, non-stencil, disposable warmer.

The device is primarily used in hospitals, doctor's offices, and other healthcare facilities.

CAUTION
U.S. Federal law restricts this device to sale by or on the order of a physician.

WARNINGS: Failure to follow these warnings can lead to severe burns
- Do not apply to injured, swollen, infected, or inflamed areas of skin or skin eruptions.
- Do not leave on skin longer than 10 minutes.
- Routinely and regularly check the infant’s skin for redness while device is on the skin.
- Do NOT apply a covering or wrap around the Infant Heel Warmer that has been placed on the infant’s foot.
- Consult a physician when using this product on premature newborns or infants.
- Do not use in the presence of poor curculture or if the infant has sensory deficits.
- The unattended use of the Infant Heel Warmer by children or incapacitated persons may be dangerous.
- Single Use only. Do not reuse or reheat.
- Use before expiration date to prevent risk of burn.

Non-toxic Sodium acetate (food grade) and water. All contents are non-toxic.

INSTRUCTIONS FOR USE
1. Locate metal disc and grasp with thumb and forefingers of both hands.
2. Flex (bend) disc rapidly until crystals begin to form.
3. Place on heel. Remove the paper strip that covers the adhesive strap. Place around the foot, carefully placing the sticky part of the strap to the bag. Be careful not to adhere to the skin.
4. Do not leave on skin longer than 10 minutes.
5. Do NOT apply a covering or wrap around the Infant Heel Warmer that has been placed on the infant’s foot.
6. Dispose of appropriately.

CONTENTS
Non-toxic Sodium acetate (food grade) and water. All contents are non-toxic.
