

Recommended for pessary wearers

TRIMO-SAN Vaginal Jel is recommended as an adjunctive therapy to restore and maintain vaginal acidity.

The product coats the walls of the vagina with a lubricating film that helps reduce odor-causing bacteria and is recommended as standard protocol for pessary wearers providing comfort as well. When directed by a physician, Trimo-San can be used for personal hygiene, offering comfort and symptomatic relief on contact from annoying vaginal symptoms such as irritation, itching and soreness. Best of all, Trimo-San is virtually non-irritating to delicate vaginal tissue. Trimo-San Jel's low surface tension, and wetting action assists penetration into vaginal crypts and crevices.

The dosage of Trimo-San Jel may be adjusted from one half of an applicator to a full applicator to obtain desired results without leakage. This adjustable dosing will save your patients money because only what is needed is used. Trimo-San is faster spreading than a suppository and offers longer deodorant action than a douche. Trimo-San is fast and easy to use. The unique Jel-Jector Applicator makes usage, even during menstruation, esthetically acceptable.

Instructions for Use

Apply 1/2 applicator full 3 times a week for 1st week. Thereafter, 1/2 applicator full 2 times a week as long as patient is wearing pessary. If symptoms of vaginal discomfort or odor persist or worsen, please contact your health provider or physician.

Ingredients

Oxyquinoline Sulfate 0.025%, Sodium Lauryl Sulfate 0.01% Adjusted with Triethanolamine to pH4. In a water dispersible base composed of Glycerine, Carbomer N.F., Citric Acid, Sodium Citrate, Methylparaben, and Perfume.
