COOPERSURGICAL® TO ACQUIRE GENERATE LIFE SCIENCES®

Acquisition to Expand Offering in Fertility Solutions and Labor & Delivery

TRUMBULL, Conn, November 10, 2021 — CooperSurgical, Inc. announced that it has signed a definitive purchase agreement to acquire Generate Life Sciences®, a privately held, leading provider of donor egg and sperm for fertility treatments, fertility cryopreservation services and newborn stem cell storage (cord blood & tissue), for approximately \$1.6 billion. The transaction is anticipated to close in Cooper's first fiscal quarter of 2022 and is subject to regulatory approval and customary closing conditions.

The planned acquisition complements CooperSurgical's offering in both fertility solutions and labor & delivery.

"Generate's complementary offering of donor egg and sperm as well as cryo-storage enhances our comprehensive fertility solutions portfolio and furthers our ability to empower unique journeys to starting a family," said Holly Sheffield, President, CooperSurgical. "Additionally, advancements in regenerative medicine offer the potential for significant benefits from newborn stem cells. We are excited to enhance our focus on obstetrical health with Generate's established leadership in cord blood and tissue storage."

Details concerning the acquisition can be found on the Investor Relations section of Cooper's website at <http://investor.coopercos.com> under the presentation titled Generate Life Sciences.

About CooperCompanies
